

The Federal Communications Commission

Dear The Federal Communications Commission,

Phone bills are so high now, the cost has made having a phone a luxury rather than a necessity I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. it is just another way of shifting expenses to a person's local phone bill. Please do not allow this, phone bills are now higher than they have ever been, with all of the added on taxes.

I use my wireless phone for safety, security and convenience. I don't want to lose the use of this wireless phone as it has been a savior for us on several occasions.

This tax should be based upon use and not increase every users tax burden. Please do not allow this flat tax to happen.

Yours truly,

Dave S. Street 881 N. Lake St. Sp. 283 Hemet, CA. 92544

Sincerely,

Dave Street
